Young Parent 
Outreach Program

The Young Parent Outreach Program was developed to meet the special needs of pregnant and parenting teens. We provide counselling services, education and outreach to teens 18 years of age and under.

Counselling

Our Counselling Services include:

Personal counselling and referral available as required by participants.

Individual support for the development of educational, vocational and personal goals.

Group meetings to provide support and information.

Support to address relationship issues.

Support to address physical and emotional health issues.

Education

Our Educational services include:

Assistance for young parents to develop educational and vocational goals.

Assistance for young parents to find quality, affordable childcare while they pursue educational/vocational goals.

Information and resources to increase young parents' knowledge of pre-natal and post-natal issues.

Information and resources to increase young parents' knowledge of child development.

Outreach

Our outreach services are provided in the home or at other convenient locations.

These services include:

Parenting information, including the understanding and guiding of children's behavior.

Assistance for young parents to develop support networks in the community.

Modelling of parenting skills.

Providing opportunities for young parents to observe and practice new parenting skills.

Life skills and community information available according to needs of participants.

Assistance to access child care subsidies, income assistance and affordable housing.
